Annual summits

More literature. Tables to write on – not just chairs.

Could we get the names, email addresses, and phone numbers for summit attendees. There are several folks I would like to follow up with.

NONE - Very well Done!!

More time. Invite more people.

Over all it was wonderful.

No more than annual and only if there is a report back on what has happened.

Ask the local outreach programs to participate – Office on Aging, sheriff office outreach also lenders – banks, etc.

Better, more comprehensive, invitation list.

SOLUTIONS – or ideas for needs and obstacles.

Discuss solutions instead of problems.

Add more variety of service providers and possible service providers – state etc.

Be more specific, less conceptual.

Build on needs information and develop solutions.

Have something solution oriented as a follow-up.

Divide group into smaller sub-sections with similar interest, etc; then come back to larger group and report findings.

Dialogue about how agencies, government funders can better collaborate with each other.

Do you have any concerns or needs which were not discussed:

It would be helpful if you could provide contact info for each present entity for collaboration purposes.

One point not discussed was that over half of the homeless population has a mental health diagnosis and I think we need to get to the root with mental illness also with the housing.

Need to provide info and education on preventative maintenance and it's value to the homeowner.

Thanks for asking.

It is important to get the feedback from this discussion for consideration in the future.

Please follow-up.

More avenues to discuss issues meetings, forums, etc. with elected officials and providers.

Public hearings etc., to get word out to citizens/residents about programs available and who qualifies.

Thank you for taking this step.
